PHARMA SOLUTIONS

+600
PRESCRIPTION CONTAINERS

RICHARDS Pharma Solutions' selection of medication repackaging solutions for pharmacies is wider than ever.

• **Optimal product range**
• **More sizes**
• **The best materials**
• **Functional products**

Helping health professionals make the right choices for their patients.

50
DISPILL PRODUCTS

DISPILL is a complete patented system for producing blister packs in detachable multidose or unidose :

• **High quality labels**
• **Blister cards**
• **Accessories**
• **Distribution tools**

A solution that helps patients comply to their treatment.

+1200
PHARMACEUTICAL PRODUCTS

HEALTHMARK strives to improve medication safety in the Canadian Healthcare System through:

• **Unit dose & Barcoding**
• **Packaging**
• **Inventory Control and Dispensing products**
• **Automation**

That contributes to cost and production efficiency, accuracy and above all SAFETY.

CERTIFIED
ECO-RESPONSIBLE

The plant where all Richards vials for the pharmaceutical market are manufactured is the only one to have been certified ECO-RESPONSIBLE (BNQ 21000) by The Council of Sustainable Industries, which oversees the Federation of Plastics and Alliances Composites (FEPAC).

The Council of Sustainable Industries is one of the recognized bodies that ensure the integrity, transparency and consistency of sustainable development in companies and industries. With its strict principles of governance, the Council's certification process is recognized and supported by industry.

Using the right size = 24% less plastic

COUNTING SYSTEMS

FOR SPACE SAVINGS, TIME SAVINGS AND MORE PROFITABILITY

VIVID RX PILL COUNTER

The VIVID Rx is the newest pill counter with real-time counting and 99.99% accuracy.

- **Cost effective and maintenance-free counting is here**
- **Easily dispense tablets and get instant results**
- **Every count is continuously verified so that you never second-guess your script**
- **Quick count and Inventory mode**

EYECON™ MODEL 9420

Prescription validation, counting and filling system

- **With camera, scanner, touch screen and complete inventory program**
- **Includes a DIN database with coloured photos**
- **2-year limited warranty**

2 UNIQUE FEATURES :

PHYSICAL INVENTORY MODE

Quickly counts all medication from stock bottles and records the results in a database. Very effective for regular narcotic inventory counts.

VALIDATION MODE

To count and ensure that the medication dispensed into the vial matches what is on the prescription.

*For more information, a demo or an evaluation of your needs, contact your RICHARDS sales representative or visit **healthmark.ca** to know more about **Vivid Rx** and **EyeCon** counting systems.*

SECURIGO™

ARROW
VIAL

- Made of Polypropylene sturdy and stable plastic
- Capped

FOR THE SECURITY OF YOUR PATIENTS

Our manufacturing standards specify the use of ONLY **virgin pharmaceutical grade** and food **grade resin** approved by the CFIA and the FDA. This ensures that **our containers are free of contaminants.** And all CR vials are CSA approved for a safe, reliable container.

FOR THESE REASONS, ALL VIALS ARE SINGLE-USE ONLY. **THEY CANNOT BE REUSED.**

All RICHARDS products are manufactured or assembled in CANADA and comply with the Canadian pharmaceutical standards.

STORAGE AND ORGANIZATION

WORKFLOW

EFFICIENCY IS EVERYTHING!

When it comes to your pharmacy operations, efficiency is everything. Therefore, at RICHARDS, our sales force is trained to visualize workflow to provide you with the best automation solutions on the market. For a presentation or assessment of your needs, contact your RICHARDS representative.

HIGH DENSITY CAROUSEL
Carousel shelving provides ease-of-access and compact storage while drastically reducing the space required to store your pharmacy inventory.

HD STOCK™
HIGH-DENSITY STORAGE
HD Stock is a precision-engineered, high-density storage product line that will help your pharmacy become more organized, reduce your inventory foot-print, and speed up your script-filling process. HD Stock has been specifically designed to store medications, paying special attention to ergonomics and functionality.

POUCH PACKAGING & VERIFICATION

ATP SERIES

ATP2® AUTOMATIC TABLET PACKAGER
The **ATP2®** is the latest innovation in pouch packaging and leaps ahead of all the other systems in reliability, longevity, and features to drive efficiency and growth for your pharmacy. The **ATP2®** is available in many different sizes and configurations.

PERL® POUCH INSPECTOR
One second is all it takes to inspect 5 pouches! The **Perl®** is the fastest and smallest pouch verification system on the market. Combined with with the **ATP2®**, it's the perfect duo!

WILL CALL SYSTEMS

ILOCALBOX™
CABINET RETRIEVAL SYSTEM
iLocalBOX™ is a system of cabinets that uses a cloud-based software to secure prescriptions and allow your customers to retrieve them at their convenience. This allows you to offer a safe service and extend the reach and hours of your pharmacy.

SCRIPCLIP™
WILL CALL SYSTEM
Locate the right bag for the right customer quickly and efficiently every time! Once a prescription has been filled and verified, a **scripClip™** bag/clip is scanned and attached to the completed Rx. At pickup, the appro-priate **scripClip™** tagged prescription will light up eliminating searching time.
